*Title:* Guidance on Sound Incentive Compensation Policies.

*OMB Number:* 1557-0245.

*Abstract:* The guidance states that each large national bank and Federal savings association should: (i) have policies and procedures that identify and describe the role(s) of the personnel and units authorized to be involved in developing and administering incentive compensation arrangements, identify the source of significant risk-related factors, establish appropriate controls governing these factors to help ensure their reliability, and identify the individual(s) and unit(s) whose approval is necessary for the establishment or modification of incentive compensation arrangements; (ii) create and maintain sufficient documentation to permit an audit of the organization’s processes for developing and administering incentive compensation arrangements; (iii) have any material exceptions or adjustments to the incentive compensation arrangements established for senior executives approved and documented by its board of directors; and (iv) have its board of directors receive and review, on an annual or more frequent basis, an assessment by management of the effectiveness of the design and operation of the organization’s incentive compensation system in providing risk-taking incentives that are consistent with the organization’s safety and soundness. The principles discussed in the guidance will vary with the size and complexity of a banking organization, and monitoring methods for small banks are not directly addressed by these four policies and procedures in the guidance.
